Laboratory Non-Covered Services Agreement
Laboratory Supporting Services to Office Visits

Lab Processing Fee

This aids in the cost of equipment, time for processing, and drop-off/pick-up of specimen collections. Applicable to all primary care and specialty blood draw services, as external locations are also charging fee for service.

| | |
|---------------------------|------|
| CHL (Cleveland Heart Lab) | \$50 |
| Genova | \$50 |
| LabCorp and Quest | \$20 |
| US Biotek | \$50 |

Extended time visit, applicable to returning/established patients (not applicable to initial appointments)

Rebel Med NW offers return office visits up to 15 or 30 minutes (for established patients), with initial office visits up to 60 minutes (for new patients). This extended time non-covered service fee is applied to those respective office visits that go beyond insurance covered times, of upwards to an additional 30 minutes. This is to aid any additional time that is required to review educational discussion, treatment management, or axillary services in that allotted time.

\$100

Interpretation Lab Fee

Applicable to Diagnostic Solutions Laboratory (GI-MAP), DUTCH, and Genova labs to aid in the clinical education and research performed prior to the office visit, which the return office visit is still subject to insurance coverage (towards a copay or deductible). Providers spend minimum 30 minutes (upwards to 90 minutes) to aid in the review, assessment, treatment curation, and discussion with any other provider prior to review with the individual.

\$100

Income Based Adjustment, applicable for those who are eligible and meet the criteria for our sliding scale regarding interpretation lab fee. For more information, please ask our front desk for the documentation that is required for our office.

\$50

Specialty Non-Covered Services Agreement

Specialty testing is a great tool to utilize as part of an individual's evaluation and assessment to aid in the curation of treatment protocols. Pending on insurance benefit coverage, not every individual insurance carrier may provide coverage. If and when needed, additional documentation can be requested to aid in any claim for reimbursement purposes. See below for additional details.

Center for SIBO Testing

Specialty Testing Options

Center for SIBO Testing offers breath testing to aid in the diagnosis of SIBO. This is through a specific breath test that involves the collection of breath sample over a 2-hr period. Center for SIBO Testing does offer insurance benefit billing when applicable. *Billing and payment collection are subject for SIBO Testing.*

Lactulose Breath Test (varies by Testing facility)

\$250
(Maximum cost)

Diagnostic Solutions Laboratory

Specialty Testing Options

Diagnostic Solutions Laboratory (DSL) offers services for serum and stool testing. At this time, the providers are exclusively utilizing GI-MAP (stool collection) to aid in the evaluation and assessment for digestive concerns. DSL does offer insurance benefit billing when applicable. *Billing and payment collection are subject to Diagnostic Solutions Laboratory.*

GI-MAP

\$360
(Maximum cost)

5401 Leary Ave NW, STE 202 | Seattle, WA 98107
 Phone: 206-297-6013 | Fax: 206-582-3472
 Email: info@rebelmednw.com | Website: www.rebelmednw.com

DUTCH Testing

Specialty Testing Options

DUTCH testing utilizes urine specimens to assess hormones for a further evaluation and assessment to aid in treatment curation. DUTCH allows insurance billing when applicable. The individual will request a superbill and pay at the time of service through the Rebel Med NW facility. If and when insurance coverage is applicable, the individual will be reimbursed on an individual basis through their own claim separately through their own private insurance plan. Please discuss with provider regarding options and costs.

Varies

| | |
|--------------------------|--------------|
| DUTCH Complete | \$399 |
| DUTCH Plus | \$499 |
| DUTCH CAR | \$299 |
| DUTCH Cycle Mapping | \$499 |
| DUTCH Cycle Mapping PLUS | \$699 |

Genova

Specialty Testing Options

Genova testing utilizes a variety of specimen collections for a further evaluation and assessment to aid in treatment curation. Collection type and pricing amounts vary. Genova allows insurance billing when applicable, otherwise there are options for self-pay options. Please discuss with provider regarding options and costs. *Billing and payment collection are subject to Genova.*

Varies

\$65 – \$775

Great Plains Laboratory

Specialty Testing Options

Great Plains Laboratory (GPL) testing utilizes a variety of specimen collections for a further evaluation and assessment to aid in treatment curation. GPL allows insurance benefit billing, otherwise there are options for self-pay. *Billing and payment collection are subject to GPL.*

Varies

USBiotek

Specialty Testing Options

USBiotek specializes in food sensitivity and allergy testing (IgA, IgE, and IgG), Candida panel, Celiac panel, Organic Acid Testing (OAT), Aeroallergens, and Environmental Pollutant testing. Due to their billing, they do not process any insurance benefits at this time. Please discuss with provider regarding options and costs. *Payment will be subject at the time of service through Rebel Med NW facility.*

Varies

| | |
|--------------------------|----------------------|
| Food Sensitivity Panel | \$159 – \$279 |
| Candida Panel | \$79 – \$109 |
| Celiac Panel | \$89 – \$119 |
| Organic Acids Profile | \$149 |
| Aeroallergens | \$69 – \$189 |
| Environmental Pollutants | \$99 – \$199 |
