**Laboratory Non-Covered Services Agreement**  
**Laboratory Supporting Services to Office Visits**

**Lab Processing Fee**

This aids in the cost of equipment, time for processing, and drop-off/pick-up of specimen collections. Applicable to all primary care and specialty blood draw services, as external locations are also charging fee for service.

LabCorp and Quest (Blood Draw Fee) **\$25**  
 US Biotek / Genova (applies to Urine/Blood processing specimens for Draw and Processing) **\$50**

**Interpretation Lab Fee**

Applicable to Diagnostic Solutions Laboratory (GI-MAP), DUTCH, and Genova labs to aid in the clinical education and research performed prior to the office visit, which the return office visit is still subject to insurance coverage (towards a copay or deductible). Providers spend minimum 30 minutes (upwards to 90 minutes) to aid in the review, assessment, treatment curation, and discussion with any other provider prior to review with the individual. **\$100**

**\*Income Based Adjustment**, applicable for those who are eligible and meet the criteria for our sliding scale regarding interpretation lab fee. For more information, please ask our front desk for the documentation that is required for our office. **\$50**

**Specialty Non-Covered Services Agreement**

Specialty testing is a great tool to utilize as part of an individual’s evaluation and assessment to aid in the curation of treatment protocols. Pending on insurance benefit coverage, not every individual insurance carrier may provide coverage. If and when needed, additional documentation can be requested to aid in any claim for reimbursement purposes. See below for additional details.

**Center for SIBO Testing**

**Specialty Testing Options**

Center for SIBO Testing offers breath testing to aid in the diagnosis of SIBO. This is through a specific breath test that involves the collection of breath sample over a 2-hr period. Center for SIBO Testing does offer insurance benefit billing when applicable. *Billing and payment collection are subject for SIBO Testing.*

Lactulose Breath Test (varies by Testing facility) \$ \_\_\_\_\_

**Diagnostic Solutions Laboratory**

**Specialty Testing Options**

Diagnostic Solutions Laboratory (DSL) offers services for serum and stool testing. At this time, the providers are exclusively utilizing GI-MAP (stool collection) to aid in the evaluation and assessment for digestive concerns. DSL does offer insurance benefit billing when applicable. *Billing and payment collection are subject to Diagnostic Solutions Laboratory.*

GI-MAP \$ \_\_\_\_\_

**DUTCH Testing**

**Specialty Testing Options**

DUTCH testing utilizes urine specimens to assess hormones for a further evaluation and assessment to aid in treatment curation. DUTCH allows insurance billing when applicable. The individual will request a superbill and pay at the time of service through the Rebel Med NW facility. If and when insurance coverage is applicable, the individual will be reimbursed on an individual basis through their own claim separately through their own private insurance plan. Please discuss with provider regarding options and costs. \$ \_\_\_\_\_

 DUTCH Cycle Mapping  
 DUTCH Cycle Mapping PLUS

**Genova**

**Specialty Testing Options**

Genova testing utilizes a variety of specimen collections for a further evaluation and assessment to aid in treatment curation. Collection type and pricing amounts vary. Genova allows insurance billing when applicable, otherwise there are options for self-pay options. Please discuss with provider regarding options and costs. *Billing and payment collection are subject to Genova if purchased through Genova*

\$ \_\_\_\_\_

**Great Plains Laboratory**

**Specialty Testing Options**

Great Plains Laboratory (GPL) testing utilizes a variety of specimen collections for a further evaluation and assessment to aid in treatment curation. GPL allows insurance benefit billing, otherwise there are options for self-pay. *Billing and payment collection are subject to GPL.*

\$ \_\_\_\_\_

**USBiotek**

**Specialty Testing Options**

USBiotek specializes in food sensitivity and allergy testing (IgA, IgE, and IgG), Candida panel, Celiac panel, Organic Acid Testing (OAT), Aeroallergens, and Environmental Pollutant testing. Due to their billing, they do not process any insurance benefits at this time. Please discuss with provider regarding options and costs. *Payment will be subject at the time of service through Rebel Med NW facility.*
